French : Native  
English : C1  
Spanish : B1

# BUSINESS ANALYST RETAIL

[PORTFOLIO](#) - [GITHUB](#)

## EXPERIENCE

### DATA ANALYST — internship

September 2025 – April 2026 | Par & Pour | France

- Built and maintained automated ETL pipelines using SQL, Python and dbt
- Automated dashboard creation processes, reducing development time by 30%
- Built AI-powered reporting assistants and prompt workflows to accelerate business analysis
- Partnered with business stakeholders to translate operational needs into relevant data insights

### AREA MANAGER

2023 – 2025 | MiiN Cosmetics | Paris

- Managed performance across multiple stores and retail teams
- Analyzed daily sales KPIs and customer behaviour data to identify growth opportunities
- Implemented data-driven action plans, contributing to a +25% revenue increase
- Lead and coached store managers to achieve commercial objectives, reducing staff turnover by 10%

### STORE MANAGER

2020 – 2023 | Oh My Cream | Paris

- Managed a flagship store generating €1.4M annual revenue, leading a team of 8 employees
- Improved store conversion rate by +5% and optimized stock management and operational processes

### BtoB BUSINESS DEVELOPPER

2016 – 2019 | LFV | Vendée

## DATA PROJECTS

### Export Market Targeting — PCA & Clustering — Python, scikit-learn, pandas

Analyzed 141 countries on 9 socio-economic variables using PCA and K-means/hierarchical clustering to identify priority export targets

### Retail Performance Dashboard — Power BI, SQL

Built an end-to-end dashboard tracking revenue, conversion rate and customer retention  
Automated KPI monitoring across 20+ metrics, cutting reporting time by 70%

### AI-Powered Reporting Assistant — Python, OpenAI API, Power BI

Developed an AI-assisted workflow to generate business insights from raw data  
Reduced analysis and documentation time by 30%
