RETAIL SPECIALIST + BUSINESS ANALYST

After six years of retail management (P&L, teams, commercial KPIs), I built new skills into data analytics. I build ETL pipelines, automate reporting, and design dashboards, always staying connected to the operational needs of frontline teams. My added value: I understand the operational reality of a store just as well as the tools that measure it. I'm looking for a role where this dual perspective, retail and data, turns into insights that commercial teams can actually act on.

EXPERIENCE

BUSINESS ANALYST - internship 6 month

2025 - 2026 | Abelia | Dublin

- Cleaned and standardized the client database: identified duplicates and inconsistencies, corrected via automated scripts
- Built an internal data quality control tool in collaboration with the IT department
- Enriched client records using internal and external sources, updated data quality standards
- Contributed to customer segmentation to guide subsidiaries marketing campaigns

AREA MANAGER

2023 - 2025 | MiiN Cosmetics | Paris

- Managed performance across multiple stores and retail teams
- Analyzed daily sales KPIs and customer behaviour data to identify growth opportunities
- Implemented data-driven action plans, contributing to a +25% revenue increase
- Monitored conversion rate, average basket value and sales productivity indicators
- Led and coached store managers to achieve commercial objectives, reducing staff turnover by 10%

STORE MANAGER

2020 - 2023 | Oh My Cream | Paris

- Managed a flagship store generating €1.4M annual revenue, leading a team of 8 employees
- Analyzed sales performance and customer KPIs to drive commercial decisions
- Improved store conversion rate by +5% and optimized stock management and operational processes

BEAUTY ADVISOR

2020 | L'Oréal - Khiels | Paris

EDUCATION

2025 - 2026

Master 1 Data Analytics | OPENCLASSROOMS

2016 - 2019

Bachelor Business Development & Marketing | ESA BUSINESS SCHOOL
